

This powdered detergent contains a balanced blend of special surfactants, builders, and citrus extracts to quickly strip grease, oil, dirt, grime and other deposits from concrete floors and other washable surfaces. This formula is safe to use on most surfaces including wood, plastic, metal and painted surfaces.

DIRECTIONS

FOR CONCRETE: For heavy grime and severe oil staining, wet floor with clean water, then sprinkle detergent powder directly onto soiled areas. Scrub with stiff broom, and allow to penetrate until deposits are loosened. Rinse floor with clean water.

Light cleaning requires 16 to 32 ounces (2 to 4 cups) of detergent per 5 gallons of water. Difficult soils may require a stronger solution. Swab onto surface and allow to penetrate for 5 to 10 minutes, scrubbing with bristled broom. Rinse thoroughly with clean water. Use this detergent with care on finished floors, as some floor finishes are not detergent resistant and may be removed by this cleaner.

FOR GENERAL CLEANING: Use 4 to 16 ounces (1/2 to 2 cups) of detergent per 5 gallons of water. Sponge, mop, or spray solution onto surfaces to be cleaned, and agitate if necessary to remove soil.

FOR SOAK TANK DEGREASING: Use up to 1/2 pound per gallon of water. Hot water will provide optimum cleaning conditions. Cleaning will be faster in agitated tanks and when fresh solutions are used. Dry all cleaned parts to prevent flash rusting.

WITH D-LIMONENE

HEAVY DUTY CONCRETE
AND EQUIPMENT CLEANER

FRESH ORANGE SCENT

FREE-RINSING

BIODEGRADABLE

CONTAINS NO CAUSTIC SODA

CAUTION

Harmful if swallowed. See side panel for further cautions and first aid instructions.
